## VARSIITY SQUAD IS RAPIDLY APPROACHING MID-SEASON FORM

### Many Veterans Return---Coach Fike Attends Eastern Meetings

The Varsity football squad is now rounding into early season form and the not all of last year's veterans are out as yet, still the prospects of their being seen in Denver suits again this year are bright. Coach Fike issued the first call during registration period and at the first regular practice nine men from last year's squad and a husky bunch of men from the last year's Freshman team reported for the first work out.

To say that the prospects for a championship team are bright would be stretching a notch or two, but with the men now in suits and some yet to report, prospects do look bright for a winning team.

son, Bunger, Brandt, Gill, McLaughlin, Aspinall, Falk, Southworth.

Several men have not yet reported but will be out in suits before the end of the week. Crowley from Butte, Montana, and Connors will be open for half back jobs. "Ted" Drew has not come out as yet, but it is expected that he will report at an early date.

It is up to every man in the University who can play football and is eligible, to do his duty and report at once for a suit, then after he gets it, to get out and do his share toward building up a winning team. If you are eligible, get into a suit and help the team.

—U. of D.—

## DEBATE CLUB HOLDS INITIAL MEETING

### FLOUTON TO COACH DEBATERS FOR THE COMING YEAR.

The members of last years debate club held their first meeting of the year in the Public Speaking rooms in the Library, Thursday evening. The meeting took the form of a reception to the freshmen men, who are interested in Debating and Oratory.

Elmer Svenson, president of the club, called the meeting to order with a short talk in which he gave a history of the debate club during the three years that he has been a member of the organization. He told how the club has grown in numbers and in proficiency under the guidance of Mrs. Kingsley, and concluded by showing that we have material for an even more successful season this year.

Mr. Flouton, this year's debate coach, the man who is to a great extent responsible for our victories last year, gave a delightful and entertaining address in which he enlarged upon the value of debating and urged the men to try out for the teams. It has been shown by statistics that a greater percentage of the men who attain a grade of over ninety per cent. in scholastic average attain distinction thro their classmates. Mr. Flouton however, cited the fact, not so generally known that a still greater percentage of men who make debate teams attain distinction.

"Debating," said Mr. Flouton, "gives one opportunity for service. The student in a university serves his Alma Mater by trying out for a team, while after graduation he is enabled to serve humanity the better by this experience."

Morris Sobel, this year's Manager of Debating, was next on the program. "The advantage of debating," he said, "lies in its doing away forever with snap judgments and shallow thinking, for the man who looks clearly, with deep vision, into a question, realizes the good on both sides. He cannot say, with the certainty of ignorance, 'This side is right.'"

After speeches by Russell Shetterly and Howard Parks, the long-suffering freshmen were fed ice cream and permitted to wearily wend their ways homeward.

—U. of D.—

## OPENING RECEPTION IS GREAT SUCCESS

### JOINT CHRISTIAN ASSOCIATIONS' RECEPTION IS WELL ATTENDED.

The opening social affair of the school year was held Friday evening, September 15, in the gymnasium. The occasion was the joint reception to new students by the Y. W. C. A. and Y. M. C. A. Each year these organizations hold a reception during the first week of school to acquaint the new students with former students and to bring them into the spirit of college life.

The entertainment consisted of a very entertaining program of readings and musical numbers in which the members of both associations took part. Mr. Moore, Mr. Babcock (Continued on page 4)

## ALUMNI PUBLISH NEW CATALOGUE

### EASTERN ASSOCIATION TO PRINT DIRECTORY FOR THE ALUMNI.

The alumni association is to have a catalogue compiled and printed for the entire alumni association. An eastern corporation has offered to compile, at its own financial risk, and publish, in the name of the association and for the association a catalogue which shall contain not only the names and present addresses of all the graduates of all the departments of the University, but also a brief record of their lives, before and after graduation from college. This catalogue is to be compiled, not by mail, but by personally visiting the alumnus and getting the information from him personally. This eastern corporation is compiling such catalogues for a large number of colleges throughout the country at the same time, thus making such work possible. The catalogue will contain no advertising matter, will be bound in cloth and stamped in gilt, and will be ready for delivery by the end of the winter, thus being up to date. The price of the book is to be six dollars to such as care to subscribe for it. Of course the great portion of this price is because of the cost of compilation and not of publication. The price is equal to the cost of a city directory of a city the size of Denver.

The advantages of this publication to the alumni and the University are many. It provides a handsome book which will be a credit to the University, and which we could scarcely afford to get out for a much greater price. It is of great value in completely correcting for the association officers the address lists of the association, the difficulty of which the officers alone realize. It provides the alumnus with a biographical record of his classmates and university friends, as well as their addresses. It will be a business asset to many alumni, a social asset to others, and still a political asset to others. The executive committee feels that this enterprise will be the means of awakening the interest of the alumnus in the University and in the alumni association, whether he subscribes for the book or not, and make him feel to a greater extent than before that he is a part of the University and that the University is a part of him. It is hoped that this book will be in the hands of a large number of alumni and be used frequently by them.

—U. of D.—

## STUDENTS HOLD FIRST REGULAR MEETING OF YEAR

### MAHONY CALLS MEETING TO ORDER IN GYMNASIUM.

The initial meeting of the Students' Association of the University was held at the chapel hour, Friday, September 22. President Mahony called the meeting to order and announced that owing to the vacancies in the commission, and the absence of the Demonstration Manager, it would not be possible to introduce the commission members to the students at that meeting. However, at the next students' meeting, the new students will be formally introduced to the members of the commission.

Coach Fike made a short and snappy talk to the students in which he gave some valuable advice to the football men and asked that the whole student support the team throughout the season.

"With the large number enrolled," Fike said, "we should be able to raise the spirit of the University higher than it has been for a number of years." Coach Fike then spoke of the Football Prospects, and assured the students that even though the men were somewhat slow in reporting for practice, nevertheless, the team would be there, fit and ready for the first real game of the season, October 14th.

Weaver Barrett led the singing of College songs, giving the Frosh their first real taste of Denver spirit.

—U. of D.—

Remember that Berkow will call for old clothes and will send back new ones.

## FROSH SQUAD PROVES LARGEST IN YEARS

### TED SHULTZ COACHES THE FRESHMAN SQUAD THIS SEASON.

Eleven husky Freshmen responded to the first call for candidates last Monday and were given suits. During the past week the number has increased to nearly two teams, who are working into top condition under the excellent coaching of Shultz, the former Washington and Lee star.

The squad is the most promising that has reported from an entering class for several years and if present condition and hard work mean anything, they should give the Varsity a hard game when they meet for the first game of the season, October 6.

These Frosh have many enviable reputations among the high schools and look as tho they would be able to repeat past efforts as college athletes.

The Freshman squad is exceptionally fortunate in having as coach Ted Shultz, all American tackle in 1914 and 1915 at Washington and Lee Uni-

Ted Shultz

versity and who captained his team thru a very successful season in 1915. Shultz is at present secretary of the Denver Y. M. C. A.

The men who have reported for the squad are: Mitchell and Allen from North Denver High; Mosmer, Moore, Hickman and Parsons from South Denver High school; Gilligan of East; Platt and McCarty from Eaton, Low-stetter from Pittsburg, Andrews from East Denver, Taggart and Bowhay from Arvada, Harris and McCort from Minnesota, and Egan from Lyons, Colorado.

The Freshmen will play their first game with Golden high school September 29, Varsity athletic field. October 6 they will tackle the Varsity, and the remainder of the schedule, as planned, is: Saturday, October 14, Cheyenne at Cheyenne; October 21, Greeley at Greeley; October 28, Colorado Springs at Colorado Springs.

—U. of D.—

## STUDENTS COMMISSION ELECTS NEW MEMBERS

The Student Commission of the Students' Association met on Monday afternoon and filled the vacancies in the Commission caused by the non-return of three of the members elected last year.

Ralph Peoples was chosen as vice-president, filling the vacancy left by Keith McCloud. Miss Ruth Elliott will have charge of the secretarial duties of the commission, taking the place of Miss Elizabeth Morgan. The position of auditor will be filled by Miss Helen Fry, who succeeds Lorenzo Linville.

The Commission discussed plans for the student activities during the coming year, paying special attention to the office of Demonstration Manager, which is a new one, having been created last year. Daniel Wolfe is to have charge of this position. All rallies, celebrations, bonfires and demonstrations will be under his direction. Mr. Wolfe will appoint a yell leader, who will drill the students and have charge of the "noise" at all of the athletic events. The yell leader will in all probability have one or two assistants.

The Demonstration Manager has authority to call on any student or group of students for help in preparing for rallies and other jollifications.

The members of the Student Commission this year are: President, Louis Mahony; vice-president, Ralph Peoples; secretary, Ruth Elliott; treasurer, Emerson Allsworth; debating representative, Morris Sobel; athletic representative, Glenn Bingham; Clarion editor, Charles Queary; demonstration manager, Daniel Wolfe; auditor, Helen Fry.

## BIG SISTERS HOLD RECEPTION--- FAMILY OF 300 ATTEND AFFAIR

### Down-Town Meeting Places Crowded With Many Pretty Co-eds

The annual Big Sisters' Tea was held by the big sisters for their little sisters, Saturday afternoon, September 16, at Daniels and Fisher's tea room. Every one of the well-known "meeting places" down town was crowded with groups of big sisters and little sisters, but by far the most popular was the "Ask Mr. Foster" space at the entrance to Daniels and Fisher's. The crowd there was so thick that the women shoppers good-naturedly chose another door, while men shoppers, in quest of a collar for the ensuing Sabbath, finding their favorite entrance blocked, beat a hasty retreat.

## SCHOOL OF PHARMACY ADDED TO UNIVERSITY

### FACULTY OF THE SCHOOL CONTAINS MEN OF REPUTATION.

A school in pharmacy has been added to the list of schools which form the University of Denver. Some twenty-three years ago a school of pharmacy was conducted in connection with the University, but in the financial panic of 1893-4 it was forced to close. This year a new school was opened. It will be associated with the College of Liberal Arts and will be located at University Park.

The faculty of this school are: Chancellor Henry A. Buchtel, A. M., D. D., LL. D.; Wilbur Dwight Engle, A. W., Ph. D., Sc. D., Dean and professor of Chemistry; Ira Eugene Cutler, A. M., Professor of Botany; Edward Rosseter Murgage, A. M., M. D., Professor of Bacteriology; Carlota Estelle Roose, A. M., Instructor in Chemistry; Humphrey Gray Owen, A. M., Instructor in Botany; and Reuben Gilbert Gustavson, A. B., Instructor in Chemistry.

The school proposes to offer degrees of Graduate in Pharmacy for the two-year course, Pharmaceutical Chemist on completion of an additional year of work, and Bachelor of Science in Pharmacy for the full four years course of this work.

The School of Pharmacy began its first year with sixteen students, more students than are registered in any other institution of its nature in the state.

—U. of D.—

## HAND BOOKS PROVE POPULAR EDITIONS

### ONE DIME ALL THAT IS NEEDED TO GET "FROSH BIBLE."

Members of the executive committee of the Y. M. C. A. and the Y. W. C. A. met all of the Freshmen, Sophomores and most of the upper classmen with a hearty hand-shake in one hand and a copy of the "Freshman's Bible," otherwise the 1916-17 University Hank Book, in the other; for all of which they were kind enough to suggest that one small dime would cover the cost of both the hand-shake and the hand-book.

The 1916-17 Hand-book is changed in many particulars; new write-ups of the associations are a feature. The school activities, clubs and honor societies have all been made better by overworking of the editor. The Hand-book finds a place for itself in every student's pocket and no student should be without one. It is the Freshman's Bible, the Sophomore's "Hymnal," the Junior's inspiration and the Senior's social date book.

The Y. M. C. A. and Y. W. C. A. in general and the men who put out the book in particular, deserve a word of praise for the fine work they have done. Ralph Peoples and Leslie Eichelberger were the editors and Daniel Wolfe handled the managerial end.

—U. of D.—

Keep well. Wagstaff will help you if you will only call at the U. of D. Drug Store.

—U. of D.—

Patronize our advertisers.

In the hall adjoining the tea room, a general "get acquainted" party was soon in progress. Big sisters lost no time in getting acquainted with every one's else little sisters, and in introducing them to Miss Shuler and to the only "big brother" present, Chancellor Buchtel.

After English afternoon tea had been served, the girls sang college songs to the music of an orchestra of ukeleles.

Charlotte Wood, the president of the Big Sisters' Association, introduced the speakers of the afternoon. Short talks were given by Miss Shuler, Chancellor Buchtel, Lisa Muntwyler, ex-president of the association, representing the Big Sisters, and Jeannette Speiss, of the Freshman class, representing the little sisters.

The Big Sisters' Association was founded three years ago. It is the only organization in the college, with the exception of the Young Women's Christian Association, in which all the girls of the University are brought together.

Cora Emery, '15, was the first president of the Big Sisters, and did much to start the organization on the way to success. Lisa Muntwyler, '16, the second president, thru her earnest work gave the association the strength and standing it now has. Charlotte Wood, this year's president, has given the breadth and charm to the work which has made the Big Sisters' Association of the University of Denver so far-reaching and effective in its results.

—U. of D.—

## S. R. O. SIGN NEEDED FOR Y. W. C. A. MEETING

### CURIOSITY OF BIG AND LITTLE SISTERS IS AROUSED.

"We" was the subject of the meeting of the Young Women's Christian Association Tuesday morning, September 19. A huge poster bearing the words, "I am going to Y. W. C. A. with my big sister. Are you?" aroused the curiosity of big and little sisters until the chapel was entirely filled and a "S. R. O." sign was in order.

The members of the cabinet sat in state upon the platform and were introduced by the president, Treva Bonar. Mrs. E. W. Milligan, the chairman of the advisory committee, made a short talk, explaining the work of that body. Each of the committee chairmen was then introduced by the president and spoke a few words about the duties of her committee. The speakers and their subjects were:

- "Membership"—Doris Moser.
- "Bible Study"—Helen Morris.
- "Mission Study"—Hope Jay.
- "The Women's Room"—Edna Gathe.
- "Tea Room"—Charlotte Wood.
- "Conference"—Doris Miller.
- "Association News"—June Davis.
- "Religious Meetings"—Ruth Elliott.
- "Social Work"—Elma McClelland.
- "Finance"—Winifred Mead.
- "Social Service"—Ingar de la Gardie.

—U. of D.—

Behold, my brethren, how mighty they are! They commandeth the shekles and verily, my brethren, it is of these shekles that our paper is wrought. The filthy lucre assuageth the pocketbook of the printer—it buyeth the material—it does many things. The filthy lucre, my brethren—the shekles—they come from the hand of the advertisers. Yea, great is the persuasion, my brethren, and wondrous the tale of the manifold return of these shekles that maketh the advertisers so to do. And, therefore, my brethren, patronize the advertisers that they may so incline their pocketbooks that its running forth may again make possible the publication of this paper. And remember, my brethren, if ye trade not with the advertisers ye are as transgressors, but if ye do trade with them and mention not their ad, you are worse than an infidel.

# THE DENVER CLARION

OF THE UNIVERSITY OF DENVER

Published every Tuesday during the collegiate year by the Press Club of the University of Denver. The official paper of the Students' Association.

Entered at the postoffice of Denver, Colorado, as mail matter of the second class. Printed by Eames Bros., 1842 Stout Street.

CHARLES H. QUEARY.....EDITOR-IN-CHIEF  
 RUTH V. TITMARSH.....ASSOCIATE EDITOR  
 RALPH V. PEOPLES.....ASSOCIATE EDITOR  
 FRANK H. H. ROBERTS.....ASSOCIATE EDITOR  
 E. ORREN PRESTON.....ATHLETIC EDITOR  
 JUNE DAVIS.....SOCIETY EDITOR  
 ELEANOR LOWE.....LOCAL EDITOR  
 WAYNE N. ASPINALL.....BUSINESS MANAGER

Phones: Editor-in-Chief, South 619; Business Manager, South ???  
 Printers, Champa 771.

### SUBSCRIPTION RATES.

One Year .....\$1.50  
 One Semester ..... .75  
 Single Copies ..... .05  
 Advertising rates furnished on application.

The Editor-in-Chief is responsible for all editorials unless otherwise indicated.

### CLARION STAFF.

With this issue, the first issue of the Clarion for the year 1916-1917, appears the staff of Editors for the year. The Editors for the most part have been chosen from the upper classes and they have been chosen with a view to their willingness to work as well as their newspaper ability. In the choice of his associates, the Editor has in no way considered connections with societies or clubs and the staff is chosen with a conscientious determination to make The Clarion a better college paper than ever before.

Ruth Titmarsh, Ralph Peoples and Frank Roberts will fill the positions of Associate Editors. Ruth Titmarsh has been a worker on the Clarion since entering the University. Ralph Peoples, last year's editor of the Kenewisbok and Associate Editor of the Clarion, will act as Associate Editor. Frank Roberts is new to the University and the Clarion, having attended the New Mexico Normal School where he was Editor-in-Chief of the Normal School paper. Orren Preston, the new to the staff, is well known in the University. Active work in reporting and a knowledge of the athletic situation at all times, assures the Clarion that the athletic page will be well taken care of. June Davis will write society. She is an excellent writer with, as she says, "a natural tendency toward society." Eleanor Lowe will fill the position of Local Editor and by past achievements on Clarion work, will give the students "all the news all the time."

In the general make-up of the paper, Ruth Titmarsh will have charge of features; Ralph Peoples, clubs, honor societies, classes; Frank Roberts, chapels, the offices and exchanges; Orren Preston, athletics; June Davis, society; and Eleanor Lowe, campus news, locals and alumni.

### WHAT'S THE MATTER WITH THE CLARION?

By the time you have read this article, you will know what is in the paper. What is there there that you do not like? Can you suggest any NEWS that isn't in this issue? Ask yourself these questions and decide whether you think the Clarion is all it should be. However, in your considerations remember that the Editor is only human, that the Clarion will not run itself, that the Editor also has other things to do and that even the mistakes occur, he is doing the work to the best of his ability. Then after you have thought over these things, call around and tell the Editor what you think of the paper, how it can be bettered, and if you have a kick coming and you have to kick, tell the Editor that too, but don't tell anybody else. Don't be a knocker without something to back it up with. Suggestions are always helpful and if you think you can make the Clarion a truer mirror of University life and activities, you may be assured that he will welcome you with open arms and be glad to listen to your criticisms and suggestions.

—U. of D.—  
 GET INTO A CLUB!!!

In another column of this issue appears a list of the societies, clubs and honor societies of the University. This list is published for the benefit of Freshmen and new students.

There are among these organizations, societies or clubs for all departments of work. If you are desirous of becoming better acquainted with the practical and humorous side of chemistry, the Chemical Club is ready to receive your application for membership. Are you inclined toward the study of botany, biology, history? Toward debating and oratory? If so the clubs of these departments are open to Freshmen and new students. Thus in every department you will find an organization which will further your interest in the study. Choose the one you are interested in most of all and put in your application for membership.

Many of these clubs have requirements which you will have to meet before you can become a member but a little time and energy is all that is necessary for most.

However, the idea of activity and interest in these organizations can be overdone. If you are able to carry your college work with a high average and belong to two or three, there is no limit to your activities, but if the participation in these activities is such that it impairs your studies and takes too much of your time, you are doing yourself a harm rather than a good. The good you will get out of these activities will be equal to the amount of interest you put into them.

Should you join one or more of these organizations, do not do so unless it is with the intention of being one of its live and active members. A dead member is worse than none at all. Organizations of all kinds are too full of this dead material and when you put in application for membership or are asked to join, if you accept, accept with the idea of being a booster and not a member who will have to be always on the list of those who have no interest and are a detriment to the Society.

—U. of D.—  
 CRITICISE, BUT DON'T KNOCK.

The Clarion begins with this issue the twenty-first year of its publication. In the past the Clarion has had many forms and sizes. The management of this year's Clarion feels that the paper has found its right size in the form in which it has been published during the past year, therefore there has been no change made in the size for the coming year.

The policy of the Clarion also has not been changed. The Clarion has always stood for the best in college and university life, for those ideals and traits of character which make loyal and true alumni, for the clean sportsmanship and a square deal to every student. This policy will remain the same during the ensuing year. The Clarion will strive, always, to be a booster for clean, wholesome college spirit and an upholder of the principles, customs and traditions of the University.

However, to carry out any definite journalistic policy, a paper must have the support of the people and the community it serves. To furnish the University, students and Faculty with all of the news, the Clarion must have the cooperation of every student, not only those who make the news but those who read the news as well.

The Clarion staff welcomes all criticisms, suggestions and articles from every student if they are given in the spirit of betterment for the University and the Clarion. Articles turned in by students will be given the attention and consideration of those of any of the staff editors.

—U. of D.—  
 MEN'S GYMNASIUM CLASSES.

The following paragraphs should contain something of interest to every normal man and boy in the University of Denver.

The splendid equipment of the University Gymnasium is at the service of every self-respecting man. The pressing demands of modern school life, the

close confinement of the class rooms, necessitates normal physical exercise so that a balance may be established and maintained toward healthful living.

No argument is needed to convince men of the value of systematic exercise, but the lack of proper instruction, the dread of the monotony of the usual gymnastic exercise and the fear that too much time will be consumed in the effort, combine to deter men.

In the University Gymnasium these drawbacks are absolutely eliminated; the exercises are attractive and furnish a large amount of real fun and enjoyment. The classes are begun and concluded on a scheduled time and are short and snappy. Formality is reduced to the minimum and a premium is placed on the play spirit.

The system of physical training followed is the American, which recognizes the best in all other systems, but which has been developed after study and experiment into a method peculiarly adapted to Western American needs. The entire aim of the work is to furnish one with a sound, healthy body, developed to meet the needs of modern life, to teach correct carriage and poise, to increase vitality and to provide real wholesome recreation.

Examinations are necessary and an examination of all students who take the course must be made. The examination is usually made at the time of securing the locker. It is free.

The physical directors are men of training and experience and are competent to advise members of the classes as to the greatest good which may be obtained from the work. A corps of volunteer leaders assist the directors in the planning and conducting of all classes. Mr. Granville Johnson, who has been director in the Denver Y. M. C. A. and was director of the University Gymnasium last year, will again have charge of the classes. Robert Shotwell and Karl Hayashii are associate directors for the year.

The Gymnasium is 106 feet long, 90 feet wide and 45 feet in height. It is well lighted and excellently ventilated. A set of heavy apparatus is installed, together with the usual hand apparatus found in all well kept Gymnasiums. An abundant supply of mats, chest weights, medicine balls, baseballs, basketballs and other much used paraphernalia is provided and all are kept in first class condition.

While the class schedule is the basis of the systematic work of the department, games and recreation are popular ways of spending time. Handball, indoor baseball, volley ball and indoor athletics are used in the regular schedule.

The Gymnasium is your Gymnasium and the classes are intended for your benefit. Get into a class from the first!

## Library Has Received Many New Volumes

APPROXIMATELY 50 VOLUMES DONATED TO UNIVERSITY LIBRARY.

During the summer some very fine volumes have been added to the school library. Some were donated, others purchased by the school. Among them are:

1. The Harvard Classics in fifty volumes (Dr. Elliot).
2. Moulton's Library of Literary Criticism in eight volumes.
3. Applied Psychology, issued under auspices of the Society of Applied Psychology.
4. Set of Little Classics, edited by Rossiter Johnson.
5. (a) Best Short Stories of 1915; (b) Year Book of Fiction for 1915, edited by Edward J. O'Brien.
6. Printing and Writing Materials: Their Evolution. (Adele Millicent Smith)

Two interesting new books are: Platner's Topography and Monuments of Ancient Rome, and Syntox of Early Latin Verbs. These books are for special use in the Latin classes.

Approximately fifty volumes on educational subjects were donated by Miss Marietta Denchfield, a recent graduate of the university.

The most beautiful books of the new collection are eight volumes of Myths and Legends, handsomely illustrated.

## Japanese Editor Takes Work In Journalism

Junzo Sasamon, formerly editor of the Review of Reviews of Tokio, Japan, has enrolled for several courses in the department of Journalism. Mr. Sasamon is well known among the prominent Japanese of Denver and is at present writing for one of the two Japanese papers published in Denver. He is also an assistant to the pastor of the Japanese Mission located on West Colfax in what was formerly St. James church.

## REV. JOHN McNEAL SPEAKS IN CHAPEL

The students were given an agreeable surprise for the chapel service Monday, when the Reverend John McNeal, pastor of the Central Presbyterian church, spoke to the meeting. The topic of his sermon was "The Impulsive Acceptance of Salvation" and with his Scotch accent, hearty humor and intenseness of purpose, it proved an eye-opener to the students. "Many of you are related," said Reverend McNeill, "to the family of Coming-Buts. You are like the man who said to the Lord, 'I'm coming, but give me time to bury my father,' or the man who said, 'Lord I'm coming, but give me time to visit my relatives and say good-bye.' In consecrating yourself to the Lord there is no time for the 'coming buts' but you must answer at once."

Rev. McNeill leaves soon for Europe where he will preach to the soldiers in the trenches; he is taking up this work under the auspices of the British Y. M. C. A.

—U. of D.—  
 Let "Joe" soothe your feet. He is an old hand at the business.

## Dr. Duncan Enjoys Trip Thru East in Dodge

"We had a fine trip and enjoyed every bit of the way" was Dr. Duncan's answer when asked about his trip to western Pennsylvania. Dr. Duncan, Mrs. Duncan and their son David made the journey in his new Dodge during summer vacation.

"Our trip consumed nine and one-half days. We covered 2,100 miles. We had only three punctures during all that time.

"We found the roads in pretty good condition all the way. The roads in Colorado are better than the Lincoln Highway. The roughest place we encountered was in western Nebraska. In eastern Nebraska the roads are somewhat better.

"Iowa, altho a very hilly country, has excellent highways. We found well built roads in Indiana. In Ohio they are only fair. Pennsylvania has the finest built roads along the way.

"We got into Pennsylvania on the Fourth of July. I never saw so many machines in my life as I saw on that day. It was a magnificent sight, a continuous string of machines going each way.

"Altogether the trip was wonderful. The machine went when we wanted it to go and stopped when we wanted it to stop. We returned to Denver with Colorado air in one of our tires."

## Annual Board Breaks Record For A Good Start.

Breaking all records established during past years, the Annual Board of 1918 has up to this time had four regular meetings, and several irregular ones. And, what is even more astonishing, things have been and are being done! Our secrets of course cannot even be whispered outside of our own little group, but we have done three important things which we want everyone to bear in mind. First, Tuesday evening is Annual Board meeting. Second, these people of unfathomable learning can be found on said evening at the home of Earl Engle. Third, pictures must be taken during the month of November.

## ALUMNI

Class of 1916.

Herbert Russell is doing graduate work at Leland Stanford University.

Ruth Whitford is teaching in Delta, Colorado.

Lillian Maider is teaching in Hygiene, Colorado.

Frank Harrah is in Cornell University, doing post-graduate work.

Willard Burke is in Harvard University, doing post-graduate work.

Ray Walde is attending the University of Columbia.

Selma Schmidt is in the advertising department of the Lewis Dry Goods Company.

Lucille Wind will work in the observatory at Pasadena, California.

Mabel Dickerson has been married to Ned Doris.

Lisa Muntwyler will be instructor of German in the University.

Paul Deeds will assist Julius Johnson in chemical work for the Hungarian Mills.

Gladys Hill will teach in Elrado, Mexico.

Dorothy Allen will be social secretary for Mrs. Causey.

Marion White will teach in the Junior high school in Pueblo.

## LOWELL THOMAS BECOMES PRINCETON PROFESSOR.

"Princeton Professor Completes trip.

"Lowell Jackson Thomas, faculty member, world traveler, journalist and lecturer, makes studies in north.

"After four months spent in taking moving pictures, gathering new information, climbing mountains and hunting big game thruout all parts of Alaska, Professor Lowell Jackson Thomas, of the faculty of Princeton University, well known journalist and lecturer and world traveler, has returned to Seattle with new data and pictures of the wonders of the 'Golden North' to place before the American public this winter."

Professor Thomas received his B. A. degree, 1913, and M. A. degree, 1914, from the University of Denver. He then went to Chicago where he was appointed professor of public speaking in the Kent College of Law. His training in public speaking was secured in the department of Public Speaking.

Then Professor Thomas went to Princeton to work for his Ph. D. degree. Immediately he was appointed director of public speaking in the Whig and Clio Halls, the oldest organizations in America devoted to public speaking. His work here was so satisfactory that he was elected instructor of public speaking in Princeton University to assume his duties in October.

Professor Thomas is one of the many Denver University graduates who have achieved such success.

## IS UNCLE SAM TO BLAME? OR ARE YOU POLKS MERELY GETFUL THAT ILLINOIS IS STILL ONE OF THESE UNITED STATES?

The persons whose names appear below are due to correspond with a young man living in Illinois, who was graduated from the U. of D. last June. They know who he is. He lives in Evanston and his address more minutely is 426 Hamilton Street. He is waiting patiently to hear from you; on business or otherwise. The names:

- Stuart L. Sweet
- Edward B. Dewey
- Ethel Toby
- Leslie E. Eichelberger
- R. Herle Ayres
- Clare A. Stewart
- Ray L. Walde

PLEASE SEE THE HUMOR IN THIS!

## Art School Starts Year With Large Registration

The winter term of the University Art School opened September 5 with a very promising and serious class of students. Probably the greatest feature is the fact that the student body is proving the largest of any previous years. Dates of the various lectures given by Mr. Reed will be announced at a later date.

The Art School of the University was opened in 1913 under the leadership of Prof. Henry Reed, who has been for a number of years a prominent member of the leading art societies of Denver. Prof. Reed will be the Dean for the ensuing year.

The Arts School offers a great variety of courses, having courses in drawing, painting, illustration and design, with morning, afternoon and evening classes.

## PHI LAMBDA Upsilon HOLDS FIRST MEETING

ENGLE, CROWE AND WORKING ELECTED TO MEMBERSHIP IN CHEM. FRATERNITY.

Earl A. Engle, Harry Crowe and Earl Working have been elected to membership in Phi Lambda Upsilon, the national honorary chemical fraternity. The basis of election to membership in scholarship, which is determined by averaging chemical grades with all others and giving the former twice the weight of the latter. All three of these men are to be congratulated upon receiving so high an honor.

—U. of D.—  
 First Idiot—Terrible accident in the Victrola factory.  
 Party of the Second Part—How's that?  
 First Idiot—This year's sales broke all the records.—Harvard Lampoon.

**SOCIETY**

Gamma Phi Beta held their evening party at the Tally-Ho Inn Friday, September 22.

Delta Omega took their guests to the Denham Thursday evening, September 21, and afterwards to supper at the Adams.

Sigma Kappa and her rushees enjoyed a "cozy" at the Brown Tuesday afternoon, September 19.

Beta Theta Pi announces the following pledges: Wesley Iliff, Wilmer Hosmer, Ainslie Whyman, Victor Evans, Alexander Bowie, Edward Compton, Edward Egan, Frank Mowry, Frank Roberts, James Morrow and John Morrow.

Pi Beta Phi entertained at their rush luncheon Monday, September 18, at the home of Mrs. H. E. Johnson in University Park.

Delta Omega held a reception in the sorority house Monday afternoon, September 18, from 3 until 5 o'clock.

Alpha Pi Nu has: Marion Jones, Frank Wilson, William Meldrum, Dewey Ingram and Errol Bretnell.

Gamma Phi Beta entertained at their rush luncheon Tuesday, September 19, at the lodge.

Kappa Delta held their rush luncheon in the chapter house Wednesday, September 20.

**Girls Have Stringent Rules For Rushing**

**EACH SORORITY ALLOWED ONLY THREE DATES AND \$75.**

Under the new Panhellenic rules for rushing, the first week of school was given over to the Big Sister movement. Rushing commenced Monday, September 18, and will continue until Thursday, September 28, when the bids will be sent out by the college Panhellenic. Pledge day is Friday, September 29.

Each of the five sororities is allowed three rush stunts: a luncheon, to be held in the sorority house, if the sorority has a house; an afternoon affair and an evening party. The date for each affair is determined by lot.

Each rushee has been presented with a card bearing the Panhellenic rushing rules, which are as follows:

1. No pins shall be worn until rushing season (September 18).
2. A limit of \$75.00 shall be placed on all rushing.
3. Summer rushing shall be permitted, provided expenses are kept under the \$75.00 limit.
4. No bids, written, oral or implied, shall be given before the date set by Panhellenic (September 28).
5. All rushing prohibited until day set by Panhellenic (September 19).
6. No flowers to be sent to rushees.
7. No personal dates after six o'clock p. m.
8. No talking to rushees between the time bids are sent out and the time the answers are sent in.

The Sigma Alpha Epsilon boys have moved into new quarters on Fillmore street.

Kappa Sigma has also taken up a new residence on Fillmore street.

Sigma Alpha Epsilon has a pledges: Otto Moore, Luke Gilligan, Ralph Hymmer, Irving Jones, Glenn Summers, Ben Salzer, William Smith, Harry Liggett, Guel Robb, Harry Kelly, Matthew Wilson, Curly Jones and Vernon Tweed.

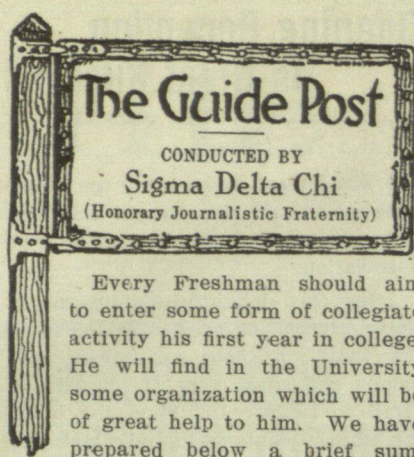

Kappa Sigma has pledged: Walter Parson, Flynn Andrew, Charles Scott, Donald Harley, Walter Baird, Horace Simpson, Stanley Rygh, Frederick Baldinger, Charles Essert, Donald Wrist, Edward Lowstetter, Albert McCord, James Bartlett and Dewey Flint.

Sigma Phi Epsilon announces as pledges: Leslie Platt, Leslie McCarty, Joseph Dietz, Everett Trout, John Caldwell and Dale Winterbourne.

Elizabeth Morgan is teaching school in Englewood. It's something to be a teacher after all.

Some of the Seniors have been objecting to the present plan of chapel seating. Cheer up, Seniors, it's only temporary and you'll soon come to the front.

Selma Schmidt, '16, the celebrated Kay Fling of Clarion fame, is writing advertisements for Lewis and Sons' dry goods store.

Every Freshman should aim to enter some form of collegiate activity his first year in college. He will find in the University some organization which will be of great help to him. We have prepared below a brief summary of the different organizations and other forms of activities eligible to Freshmen.

**ATHLETICS**  
Needs no comment. Everyone with any athletic ability should be out for either Freshman football, or basketball, track, baseball, tennis or inter-class.

**DEBATING.**  
Each Thursday evening the Men's Debating Club meets for a profitable time in debating, public speaking or parliamentary practice. The membership is limited to thirty and applications should be sent in immediately to any of the members. Mr. Svenson, '17, is president. There are intercollegiate debates each year. Freshmen are eligible for the teams. Tau Kappa Alpha is the honorary debating fraternity. Membership is by invitation.

**DRAMA.**  
The Drama Club meets once a month. Membership is limited to thirty. Try-outs for membership are held some time in October.

**LITERARY.**  
The University maintains two literary societies, Phi Alpha and Evans Literary Club. They are equally progressive and unusually active. Membership in each is limited to 30 and it is by invitation of the clubs.

**HISTORY.**  
The Scroll and Torch society was organized for the study of historical and political subjects and to create an interest in historical research.

**LITERARY.**  
For associate membership it is necessary for one to have six hours of college history. Membership is by invitation and those are selected who have maintained a high standard in class work. Meets monthly.

**ECONOMICS.**  
An Economics Club was formed last spring, similar to Scroll and Torch. Membership is by invitation, is for men only and is determined by the student's scholarship. Meetings once a month. Phi Delta Omega is the honorary men's historical and economic fraternity. Membership is by invitation.

**BIOLOGY.**  
Twenty hours' work in biology is required for eligibility to membership in the Biological Society, which meets once a month. At the meetings biological subjects are discussed by expert speakers. Pi Beta Omega is the men's honorary biological fraternity and membership is by invitation.

**CHEMISTRY.**  
Delta Chi, the chemical society, chooses its members from those men who are doing work in the Chemical Department and who have finished twenty hours of chemistry. Meetings are every two weeks. The chemical fraternity is Phi Lambda Upsilon and membership is by invitation.

**LANGUAGES.**  
There are three societies whose membership is based upon proficiency in one language. Die Lustigen Deutschen is the German club. Two years German are required for membership which may be applied for from any of the members. Les Enfants San Souci (French) and La Corte del Alhambra (Spanish) each require one year's work in the particular language and membership is by invitation. The membership of all three clubs is limited to thirty and each meets once a month.

**ORATORY.**  
Three oratorical contests are held during the college year: The Junior-Senior contest of three Juniors and three Seniors; the Freshman-Sophomore contest of three members from each class; and the inter-class contest of one member from each class, these last being ranked the highest of their classes in the preceding contests. The first prize in each contest is twenty dollars.

**MUSIC.**  
Ample opportunities are offered to everyone of musical ability. The University supports a Men's Glee Club, a Women's Glee Club, an orchestra and a band. The call for singers will come some time in the next few weeks. Those interested in the Men's Glee Club should see Prof. Cutler. Each year each of the Glee Clubs takes a trip thru the state, the men's club being accompanied by the orchestra. Band practice started Tuesday night and anyone interested should see Ernst Atkinson immediately. The band also will take a trip this year.

**PUBLICATIONS.**  
If you are interested in writing, the Denver Clarion is open to you. Any bit of news is welcome. If you do not know how to start or want some help in any way, see either the editor or one of the members of the editorial staff and they will help and assign you some particular field in their departments.

The Evans Literary Society is compiling a book of Denver songs, songs of, by and for the University. New songs are requested and accordingly the society has offered a prize for the best song of from two to four verses, written by a student.

Sigma Delta Chi is the honorary journalistic fraternity. Membership is by invitation.

**THE HONORARY FRATERNITIES.**  
There are six honorary fraternities: Sigma Phi Alpha, honorary scholarship fraternity; Tau Kappa Alpha, honorary debating and oratorical; Sigma Delta Chi, honorary journalistic; Phi Lambda Upsilon, chemical; Pi Beta Omega, biological; Phi Delta Omega, historical and economic. With the exception of Sigma Phi Alpha, these fraternities are open only to men. Election into them does not usually come until the student's Junior or Senior year. It is the policy of each society to maintain a high standard, so only those few who are unusually prominent or proficient in each particular field are admitted. More specific requirements for admission are given on page 32 of the University Hand-book.

**HONOR SOCIETIES.**  
There are but two honor societies. Scarab is the men's Junior honor society. Its membership consists of those men who have been conspicuous in service to the University during the first two years of their course and who are the most prominent and influential men in their class.

Kedros is the women's honorary Senior society. Members are elected from the Junior class from those girls who have made high scholastic records and who have shown an active interest in school life.

**U. of D.**  
Upon special request of several seniors, Mrs. Milligan has formed a class for the study of Greek Art. Mrs. Milligan conducted similar classes in art and architecture during the past year and those interested feel that a further study of the art of the Ancient Greek will be of interest to all.

**DR. VOSBURGH LECTURES ON CIVILIZATION IN TWENTIETH CENTURY.**

Dr. Vosburgh is giving a most interesting lecture course on "Civilization in the Twentieth Century."

These lectures are illustrated by beautiful and most unusual stereopticon views gathered from all parts of the globe. The lectures are given every Tuesday at 11:45 in Science Hall.

During the winter Dr. Vosburgh travels thru the state and in this way the schools and high schools are given the chance to see these beautiful slides and receive the best of information from the lectures. A few lectures are also given to large clubs or organizations in the city.

**U. of D.**  
The girls' tea room has been made attractive by the addition of new draperies, pillows, tables and a screen.

**PATRONIZE HOME INDUSTRIES!**

At the recent meeting of the Association of Life Insurance Presidents, Governor Ferguson of Texas in an impromptu talk made a tremendous hit in the course of which he pulled this delicious bit:

"I remember that upon one occasion a certain Farmers' Union lecturer was telling the farmers of Texas of the mistakes they were making. He said: 'The great mistake with the Texas farmer is that he doesn't live at home, he depends on selling cotton too much. You are continually buying something, and you don't ever sell anything. To illustrate what I mean, I need but call your attention to the fact that when you wake in the morning it is to the alarm of a Connecticut clock. You get up and button on Chicago suspenders to your Detroit overalls. You go out and wash your face with Cincinnati soap in a Cincinnati wash basin. You sit down to your breakfast and eat from a table made in Grand Rapids, Michigan, and you eat Chicago meat. And your bread is made of Tennessee flour cooked on a St. Louis stove. You go out and put a New York bridle on a Kentucky mule, fed on Iowa corn, and plow your farm all day, which is covered with a Massachusetts mortgage. And at night when you get home you read a Bible printed in Boston and you say a prayer that was written in Jerusalem. And you crawl under a blanket manufactured in New Jersey, to be kept awake all night by a dog—the only home product you have on the farm.'"

**PERSONALS**

Mrs. Julius Hansen, '10 (Jessie Ford) and little son spent a part of the summer in Denver.

Lura Mercer, '12, has been attending the summer school at Columbia University.

Mr. and Mrs. Homer McKittrick, '12, and little daughter Josephine are visiting Mrs. McKittrick's parents.

Humphrey Owen, '15, attended the summer school in Berkeley, Calif.

Bessie Helwig, '12, has been in Beulah, Colo., for the past few weeks.

Gladys Shackelford, '10, has given up her journalistic work in Evanston, Ill., and returned for a prolonged stay in Denver.

Elizabeth Fraser, '11, has returned from a trip thru the Canadian Rockies.

Dorothy Hickey, '16, has been visiting "friends and loved ones" in Evanston, Ill.

Annette Badgley has returned from Estes Park.

Mr. and Mrs. W. S. Iliff have been spending the summer in Santa Cruz, Calif.

Lella Mercer, '12, has been back from Topeka for the summer. Gladys Mead, '15, and Frances Stanchfield, '14, will teach in Burley, Idaho, this winter.

On August 23 Mabel Dickerson, '15, was married to Mr. Edward Davis.

Jos. C. Shattuck, '85, has recovered from a severe operation at St. Luke's hospital.

Chadwick J. Perry, Law, '16, and Samuel M. January, Law '16, won the two highest places in the state bar examination last June. D. U. keeps her reputation in this examination from year to year.

Alma Melzer, '14, Lucy Bartholomew, '10, and Beatrice Teague, '10, have spent the summer in Porto Rico.

Marvin C. Hix, '12, spent a month's vacation in Colorado. He is practicing law at Boise City, Idaho.

Franklin Cogswell, '12, taught a course in the summer school of the University this summer and spent much time interviewing prospective students at the University among the high school graduates of Denver. He will return to his theological studies at Columbia University.

Carl Winchell, '13, and his wife, Mildred Morgan Winchell, '14, are reported to have been shipwrecked on their honeymoon trip to Alaska, and forced to return to Seattle. Mr. Winchell has an educational position in Alaska.

**U. of D.**  
Pinkie Deeds, '19, is teaching school in Boulder county.

**U. of D.**  
We are glad that some of the old students "always come back." Eddie Rees, '12, visited the University while on his way to the University of Illinois where he is connected with the Chemistry department.

**U. of D.**  
We have heard some talk of the Sophomore-Frosh scrap. When is it to be?

**U. of D.**  
Rex Peck, member of the pitching squad of last year's baseball team, is again registered in school after trying to get a course in engineering at Colorado and Nebraska Universities.

**U. of D.**  
Have you noticed anything new in the Journalism department? We did the first time we saw Professor Cuno. However, moustaches are all the rage now.

**U. of D.**  
"Lou" Mahony has the appearance of being hit on the nose. We wonder if football is the cause?

**U. of D.**  
To the relief of the "fussers" and the "fussees," glass doors were put in main entrance. Having that heavy door pushed in one's face is not a pleasant experience, Ronald.

**U. of D.**  
Try one. Hahn's Best Policy.

**APPROPRIATE.**

"Professor, I have made some money and I want to do something for my old college. I don't remember what studies I excelled in, if any."

"In my classes you slept most of the time."

"Um—well, I'll endow a dormitory."

—U. of D.

Little Rastus—"Uncle, what am a millennium?"

Uncle Wash—"Sho, chile, doan you know what a millennium am? It's jes about the same as a centennial, only its got mo' legs."

**A WORD TO THE WISE.**

Tread softly, proud Seniors, Along your bright path; Tread softly, proud Seniors, You're not there by half; For someone may fall you, Then what will you do? Tread softly, proud Seniors, This warning's for you.

—Anon.

**SUFFICIENCY.**

The Husband—"You never kiss me except when you want money." The Wife—"Well, isn't that often enough?"

## Grid Notes

Football is in full swing in every school in the conference.

—U. of D.—

"Cap." Bingham seems to have recovered from his several injuries of last season and is leading the squad in great style. "Bing" is a hard worker and deserves to have the Varsity squad at the head of the list when Turkey Day arrives.

—U. of D.—

"Swede" Anderson looks better than ever this year. He has certainly been tearing holes in the Frosh and scrub elevens during the past week of scrimmage.

—U. of D.—

All the men have not yet reported to Coach Fike. This is due to the late opening of the Dental School.

—U. of D.—

The outlook is good and Coach Fike believes that with the entire student body behind him the team will go thru a successful season.

—U. of D.—

With the return of the guardsmen to the Aggies and Colorado camps, the prospects at those two schools are much brighter. So far Mines is mum. Colorado College seems to be a doubtful proposition, as the reports from that camp are of a doubtful nature. Many veterans have returned to Wyoming and reports promise a strong team.

—U. of D.—

The athletic field is a scene of the greatest activity any evening. Many students are out to watch practice and the men are working hard. Get out and help them along.

—U. of D.—

Gibson, last year's best ground gainer in the Aggie game, is rapidly getting into shape. "Gibby" has been on the hospital list with several bruises, but is again out for practice.

—U. of D.—

Coach Fike is drilling the men thoroly on tackling, handling the ball and receiving forward passes. Many of last year's difficulties will be overcome by a thro work-out in the rudiments of the game.

—U. of D.—

Kurton, of last year's Frosh team, is showing lots of class in the line. Whenever a hole is needed Kurton has his man out of the way.

—U. of D.—

The Freshmen are hard at work. Coach Shultz is working them harder than ever before. With afternoon workouts and evening blackboard talks, the Frosh are building up a team that will be hard to beat.

—U. of D.—

Football prospects received a decided boost with the return of Crowley and Connor. These men are back field men and should make the regulars go for their positions.

—U. of D.—

Emerson Allsworth was late entering school, but reported for practice immediately. "Allsy" was one of the hardest fighters on last year's squad.

—U. of D.—

Bob Allen of the Frosh squad received the first injury of the year, when he collided with a player's foot causing a slight fracture of the nose. Mitchell, another Frosh star, was also laid up for a few days with a dislocated shoulder.

—U. of D.—

All of the other schools in the conference report a return of many veterans and a close contest for the championship may be assured. The Aggies rejoice over the release of their stars from the rifle range. Colorado College has practically a whole team of experienced men, while Mines and Colorado look for better teams than last season.

—U. of D.—

College Professor (sharply) — Mr. Jones, who was George Washington's father?

Jones (taken unawares) — George Washington's father was — he was — George Washington's father was the grandfather of his country. — Boston Globe.

—U. of D.—

A large insurance company claims that out of one hundred average healthy men of twenty-five, at sixty-five

Fifty-four will be dependent upon relatives, friends or charity;  
Thirty-six will be dead;  
Five will still be earning their daily bread;  
Four will be wealthy;  
One will be rich.

—U. of D.—

NOT NECESSARY TO ASK.  
"I hope you didn't ask for a second piece of pie when you were over at Johnny Smith's to dinner," said his mother.

"No, ma'am, I didn't," said Charles. "I just asked Mrs. Smith for the recipe so you could make some pie like it, and she gave me another piece without my asking for it at all."

## ALUMNUS PROUD OF LAST SEASONS SQUAD

ALUMNI INTERESTED IN COLLEGE ACTIVITIES.

The alumnus is always interested in the athletic teams of his university. He is always proud to see the athletic teams of his college win, and is equally proud when his team loses after a hard, clean, loyal fight right up to the last whistle.

Our 1916 football team, the not champions, played that character of game thruout the season. The main difficulty with the team was the fact that it was by far the lightest team in the conference. The few places left vacant by graduation will be well filled by last year's crop of husky Freshmen. The old men returning will have to depend on their experience and speed if they hold their places. Coach Fike, whose work last year was so satisfactory, being his first year with the team, is in the East studying football tactics and the styles of play taught by the most successful coaches of the big Eastern universities. He will return in time to take charge of the squad. There are several very strong teams in the state and the season promises many close, hard-fought games. While it may be boastful to predict a championship for this year, yet the alumnus may rest assured that the team will give a good account of itself, will go out to get that championship, and that any other team that gets it will have D. U. to beat.

—U. of D.—

## MANY CHANGES ARE MADE IN FACULTY

NEW INSTRUCTORS AND TEACHERS ADDED TO FACULTY.

Among the things of interest to the old students are the changes and additions to the faculty and instructors. Miss Beatrice Teague, absent on leave, is to spend the year in Richmond, Virginia. The position vacated by Miss Teague has been filled by Professor Renand, from the University of Colorado.

An important and welcome addition to the faculty is Mr. Allen B. Flouton of Syracuse University and Denver University, who will take the classes formerly taught by Mrs. Prummel in Dr. Phillips' department. Mr. Flouton holds a degree of Bachelor of Laws from the University of Syracuse and attended Denver University during the past year, receiving his degree of Master of Arts. Mr. Flouton is also the coach of the debating teams.

Miss Lisa Muntwyler has taken the Freshman classes in German, Miss Crippen the beginning classes in French, while Miss Ethel Young and Miss Ruth Titmarsh are the beginning instructors in Spanish.

In the Chancellor's office, Miss Emily Groves will be assistant to Mrs. Grace, taking the place of Selma Schmidt.

Many of the departments have enlarged the corps of assistants. The department of English has proven leader in this and the assistants are so numerous that the Frosh have difficulty in eluding their watchful eyes in the beginning English classes.

—U. of D.—

## Y. M. C. A. and New Students Devour Watermelon at Stag

One of the oldest traditions of the University of Denver is the Y. M. C. A. Stag, held the evening of the first Wednesday of every school year. In accordance with the above custom, two hundred and twelve men students and several alumni of the University met on the evening of September 13, 1916, in the gymnasium. Hot hand, tag, dodge-ball and a few of "Eich's" difficult gymnastic feats constituted the first part of the program. These boyish amusements were followed by spirited talks by some of our University men, among which was a speech made by Rev. Thibodeau, president of the Alumni Association.

From these physical and intellectual pleasures the party adjourned to one known by many as a pleasure, by others as a necessity. Be it as it may, everyone did his share in the devouring of the H<sub>2</sub>O melons.

According to faculty rules (the only time during the year when they are obeyed), the stag broke up a little before 10:30 p. m. Everyone voiced the opinion that it was a success.

—U. of D.—

Leo Crowley, brother of the famous "Clem" Crowley, will be seen in a suit this week. Leo, however, does not have to depend upon Clem's record, since he has made a college record of his own.

## FRESHMAN CLASS BEST IN HISTORY OF SCHOOL

FRESHMEN WORLD BEATERS, SAYS A FROSH.

(By a Freshman)

The Freshman class is the largest that has entered the University of Denver since its beginning, and not only is the class large in numbers, but it is the richest in brains and brawn.

The future of Denver athletics is well assured for the next four years, since members of the class of '20 hold numerous athletic and scholastic records from high schools in all parts of the state and several of the surrounding states.

Many of the Seniors, Juniors and Sophomores were incredulous to say the least, when on the first days of registration the Frosh began to make their appearance. The Sophs most of all seemed to look with awe on the hugeness of build of several Freshmen, while even the Juniors were noticeably amazed.

The men of the Freshman class are football artists, track, basketball and baseball players and debaters, as well as students, so the University may look forward with some little respect to the class of '20.

Editor's Note — The above was turned in by a Frosh. Who he or she is we do not know and The Clarion wished to publish the article because of its extreme modesty.

—U. of D.—

## SOPHOMORES HOLD FIRST CLASS ELECTION OF YEAR.

The Sophomore class "got the jump" on the other classes and "sprung" the first election of the year Wednesday, September 20, in the old chapel. A large majority of the class was present at the meeting and expressed their choice for class officers as follows:

President, Edward King.  
Vice-President, Daisy Cones.  
Secretary, Ruth Bailey.  
Treasurer, Clarence Jackson.

—U. of D.—

## NEW COURSE IN DRAMATICS IS OFFERED BY PROFESSOR KINGSLEY.

The Department of Public Speaking, Professor Pearle Shale Kingsley, Instructor, offers several new courses for this and next semester. A very fine course in Dramatics is one of the added courses. This course will serve as a training school for those interested in the Drama. The class meets every other Monday evening.

—U. of D.—

## NEW IMPROVEMENTS NOTICEABLE IN Y. M. C. A. ROOM.

The Y. M. C. A.'s study room has forsaken its small-town-foreign-mission-society appearance and has taken on the air of a comfortable club room. The floor was laid with congo-leum. The blackboards were covered by bur-lap of a rich brown shade. The bur-lap is held in place by attractive strips of wall molding. The walls and ceiling were also retinted.

—U. of D.—

Work develops all the good there is in a man; idleness all the evil. Work sharpens his faculties and makes him thrifty; idleness makes him lazy and a spendthrift. Work surrounds a man with those whose habits are industrious and honest; in such society a strong man is made stronger. Idleness, on the other hand, is apt to throw a man into the company of men whose object in life is usually the pursuit of unwholesome and demoralizing diversions.—Darius Ogden Mills.

—U. of D.—

Platt, of the Frosh squad, is the largest man on the field. He is 6 feet 4 inches tall and weighs close to two hundred. Platt is from Eaton, Colo.

## CONFERENCE WILL HOLD TENNIS MEET

A tennis tournament will be staged next week among the men of the University to choose representatives to play in the state tournament. Of the men in school at the present time, Thayer, King, Yetter, McLaughlin and Lind will no doubt be the strongest contenders for places on the team.

Denver has a better chance of winning the conference championship this year than ever before. Several of the men from the other schools, who were among the best players in the conference, will not be on the teams this year.

With Scott of the University of Colorado not playing this year, the Boulder team has lost a man not easily replaced.

It is hoped that among the new students there are a number of crack players. Those in charge of the Denver team want the best there is in the school and desire that all players enter in the elimination tournament.

—U. of D.—

## WOMEN PLAN BIG MEET ON TENNIS COURT

EACH CLASS HAS ENTRIES IN TOURNAMENT.

Monday, September 25, is the date set for the women's tennis tournament. The tournament will consist of only sets in the singles and each class has made several entries.

The courts to be used are the Varsity courts, north of Templin Hall, if in good condition. Miss Rilling is supervising the tournament.

The Freshman class has entered two representatives, Nina Mead and Dorothy Benway, both graduates of East Denver High school.

The Sophomore representatives are Alta Kinney and ?????

Nina Wilson and Jean Williams will represent the Juniors, while the Seniors have as their champion Miss Charlotte Wood.

## DR. DUNCAN'S BIBLE CLASS TO STUDY LIFE OF PAUL.

As an additional incentive to the study of the Bible and attendance at the University Park Sunday School, Dr. D. Shaw Duncan has offered a course in the Life and Travels of the Apostle Paul. The class will meet at the Bible class of the Sunday School, Sunday morning, 9:45.

The first regular session of the class was held Sunday, September 17, and there were seventy present. Those who desire the credit for the class, which is one hour, must do an extra amount of work.

## Wireless Class Postponed By Lack of Text Books

One of the courses to be offered in the Department of Physics was a study of wireless telegraphy. With this in view a fine wireless station has been established with aerials connecting University Hall and the Science Hall. When the class had been listed and all was ready for work it was discovered that no text books of that nature could be found. Thus the gloom on the faces of the students of Physics. The course will be given as soon as a suitable text book can be gotten, which will in all probability mean the second semester.

—U. of D.—

Many of us were disappointed when chapel services were opened in the gymnasium instead of the new chapel. Lack of funds seems to be the cause for the delay.

—U. of D.—

The platform of the old chapel has been recarpeted.

The gymnasium has procured several new pieces of apparatus.

## Opening Reception is Great Success

(Continued from page 1)

and Mr. Barret represented the Men's Association and Miss Sproul and Miss Winterbotham the Young Women's Association.

After this delightful entertainment those present enjoyed themselves to the limit of their endurance with games and songs. As the strains of "Hail to Denver U." filled the building, the students gathered about the piano for a good college song-fest. A great amount of enthusiasm was shown and everyone present joined in with a will. The new students were given their first opportunity to learn the college songs and responded in a manner that bespeaks great things for future "Denver spirit."

At the close of the games and singing, delightful refreshments were served and, needless to say, everyone enjoyed himself or herself again. After every one had refreshed, the party broke up and many were the praises for the Y. M. C. A. and the Y. W. C. A. from the large number of students who attended.
